## TROY GELATO-PASTRY SHOWCASES:

**TROY is everything you can demand from a showcase .** With it's standard double heated glasses and thicker isolation , it supplies 7-8 % better performance comparing to our other product lines. In addition the total electric consumption is lower than the other models.

TROY is a high value-added product because of its angular stainless steel body , which supplies perfect view even from distance.

Troy models can be used in outdoors even in the tropical climates over 35 centigrades and at the high humidities.

## TROY COUNTER-TOP:

As the same elegant look as TROY showcases, TROY Counter-Tops are perfect complementary units. Besides, with the help of **Custom Corner Counter-Tops** , it is possible to create endless decorations solutions.

**TROY PASTRY SHOWCASES:**

With its power , you can keep your products at best,even at the worst conditions.

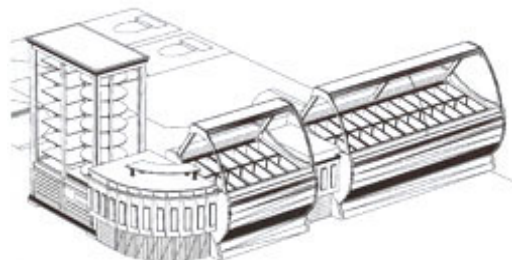

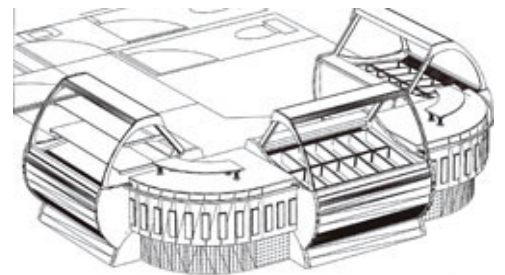

Pastry cases have 3 display shelves with rising temperature starting from the base.(+4 to +8)

**FREE 3D CAD DRAWINGS!**

**SPECIFICATIONS:**

Both Night Blinds&Plexi-Sliding Doors is available- Free of Charge

TROY has automatic defrost system, also manual defrost can be started from the digital control panel. With the double defrosting system it completes defrosting cycle in less than three minutes which helps to keep the quality of the ice-cream and gelato for more longer periods.

Like all SEVEL models TROY GELATO is testing at 35 C (centigrade) to run at -22 C (centigrade).

Front Double Heated Glass opens from below to top for easy cleaning.
