

Saeco Xelsis.
Luxurious taste.
Noble elegance.

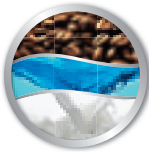

Enjoy the fresh espresso experience of the Saeco Xelsis and its countless other assets – your way to your Espresso Feeling, as personal as your fingerprint.

Saeco Digital ID
Just touch the unique Saeco Digital ID fingerprint reader and it automatically loads your personal user profile with your own name on the display – the easiest way to individual enjoyment.

Multi-function & multi-user
6 different preset coffee specialties are available and up to 6 user profiles can be stored for maximum convenience.

Saeco Fresh Taste Experience
Fresh coffee beans, pure water and milk. With Saeco you can rest assured that everything is as fresh and delicious as if it were being prepared in the finest café.

Touch Interface
The wide and easy-to-read display allows one-touch functionality and intuitive handling.

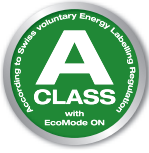

Easy-to-clean
Front access to the removable brewing group and the coffee grounds tray makes cleaning very practical.

Automatic cleaning cycles
Two automatic steam-cleaning cycles for the milk circuit keep the machine perfectly clean. For fresh cappuccino, latte macchiato and caffelatte every time.

Energy Save
This feature keeps the power consumption to a minimum. In fact, less than 1 Watt per hour is needed in stand-by mode, which automatically starts after 1 hour, saving resources and money.

Class A Energy Label
The Xelsis is kind to the environment – the proof is in the Class A energy label. With Eco-mode on, these machines feature the highest level of energy efficiency according to the Swiss voluntary Energy Labelling Regulation (FEA agreement).

Saeco Digital ID
Thanks to the integrated Digital ID fingerprint reader, you can enjoy a cup of freshly brewed coffee that is as individual as you are.

Coffee bean container
Thanks to an airtight silicon sealing and a UV-proof cover, the beans are protected from oxygen and their aroma is kept fresh until they are ground.

Hot water wand
With this feature hot water for tea and other beverages is available within seconds. Also milk can be frothed up manually.

Saeco Brewing System SBS
The choice is yours – with the Saeco Brewing System SBS. Simply by turning the knob you can prepare any kind of crema according to your taste at any time.

Adjustable coffee dispenser
To capture the whole aroma and to keep your coffee temperature, it can be moved up and down, back and forth, or even be removed, to fit any cup's or glass's size.

Milk carafe
The milk carafe can be taken off in a manner of seconds. So the rest of the milk can simply be kept in the carafe and stored in the refrigerator.
