Enjoy your Espresso Feeling.

Espresso has always been more than a beverage. Its aroma, its intensity, its countless delicious variations, its joining spirit – a good espresso is a celebration of life itself. Starting in Italy this unique feeling has sparked a café culture that today is lived and loved all around the world.

With the Saeco Syntia you can experience this Espresso Feeling in your very own kitchen, which will surely become your favourite place to spend quality time with your family. From the peaceful Sunday morning breakfast to the relaxed afternoon coffee time – what could be better than having your own stylish café right there?

Just push the button and enjoy a premium taste experience made from freshly ground coffee beans. And you can forget throwing away pads or pods all the time. Rather take a moment to just enjoy the sight of the Syntia as its stainless steel housing and compact design fits perfectly into your kitchen décor.

Discover the authentic espresso enjoyment and all the other highlights of the Saeco Syntia – your way to your personal Espresso Feeling.

Celebrating 25 years
of fresh coffee enjoyment.

Saeco is toasting to 25 years of innovations – which all started with the first fully automatic coffee machine in 1985. Not only has Saeco been the forerunner in providing groundbreaking brewing technologies and a host of easy-to-use features, all of our fully automatic coffee machines have been specially engineered to perfectly complement every kitchen design.

Two and a half decades ago the invention that connoisseurs around the world had been waiting for was finally released. With the same goal today as then: to provide you with your own personal Espresso Feeling. Cheers!

The best technology for a perfectly Italian espresso.

With a fully automatic coffee machine by Saeco, all you have to do to enjoy a perfect espresso is push a button. The machine that's so easy for you to use is actually the result of 25 years of constant engineering work.

Just like an espresso is the melange of countless nuances complementing each other, every Saeco fully automatic coffee machine is a combination of perfectly synchronized technological features. The ceramic grinders for untouched coffee taste

and the Saeco Pre-brewing Technology extracting each and every essence of the coffee beans' aroma, Opti-Dose to individually set your amount of ground coffee and the convenient removable brewing group (a Saeco invention) with 5-year warranty – all these milestones were developed to further enhance your enjoyment.

Together they bring fresh coffee beans to life, extract their very last essence of taste and enable you to enjoy perfect espresso at home – as if you were sitting in your favourite street café.

A premiere
Saeco presents the first fully automatic coffee machine with removable brewing group.

1985

The TWIN
Two cups of delicious coffee can be prepared simultaneously – for the first time ever.

Introducing Magic
By 1996 already a major seller.

Heating space for cups
A carefully thought out idea for long-lasting cremas and delicious flavour.

Brewing group: 2nd generation

Cappuccinatore
Splendid milk froth at the push of a button. Simply by inserting the hose into the milk container, deliciously creamy milk froth lands in the cup.

Digital display
Saeco produces the first fully automatic coffee machine with an electronic interface.

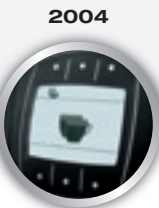

Saeco Pre-brewing Technology
To ensure that the aroma can unfold even better, the ground coffee is moistened before the actual brewing process.

Incanto Line
The smallest fully automatic coffee machine of its class developed by Saeco.

Saeco Brewing System SBS
Simply by turning the knob you can prepare the crema exactly according to your taste. A little knob that makes a big difference.

Sensitive Touch
Another innovation from Saeco: the first fully automatic coffee machine with touch-screen interface.

Ceramic grinders
For consistently accurate grinding, perfect taste and supreme longevity.

Brewing group: 3rd generation
Its capacity is increased – but it's now even smaller than ever before.

Primea Line
A new era of indulgence starts with unique innovations, unparalleled design and the finest espresso taste.

Talea Line
Saeco's exclusive design language is expertly integrated in the newest line of machines.

Odea Line
All good things come in threes: the next line appears in Saeco's unique new design – it's young, fresh and compact.

Saeco Adapting System
After preparing just a few cups, this feature automatically adapts itself to any type of bean – and always grinds the ideal amount.

Xsmall Line
The smallest member of the Saeco family perfectly combines design and functionality.

Energy Save
As little energy as possible is needed. Auto stand-by ensures less than 1 W/h is consumed.

Syntia Line
The new easy-to-use 3-colour icon display is premiered in Saeco's brand new sleek design – opening a new era of aesthetically pleasing innovation.

Xelsis Line
The ultimate in elegance and convenience. The new Touch Interface gives consumers one-touch functionality combined with elegantly tactile surfaces.

Digital ID
The new Xelsis with Digital ID automatically loads personal user profiles with the user's own name at just a touch of the fingerprint reader.

PRODUKTION:

The freshest coffee enjoyment every time.

The basis for superior Italian espresso is freshness – of all three relevant elements: fresh coffee beans, pure water and milk, especially for cappuccino lovers. With Saeco you can rest assured that everything is as tasty as if it were being prepared in the finest café.

Aroma seal – perfectly preserved coffee

The Syntia's coffee bean container is equipped with an airtight silicon sealing and a UV-proof cover. This way the beans are protected from oxygen and their aroma is kept fresh until they are ground for your next espresso experience.

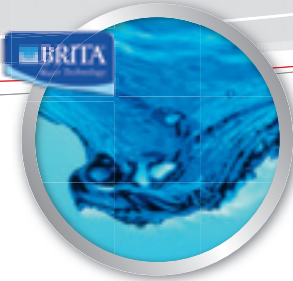

Ceramic grinders – perfectly ground coffee

This high-tech feature guarantees consistently accurate grinding for every coffee blend, additionally it never overheats the beans. Combined, these two advantages deliver true Italian taste in every cup.

Fresh beans – full aroma

Whole beans are freshly ground for every cup thanks to ceramic grinders. With groundbreaking technology we extract the full aroma from every single bean.

Fresh water – pure taste

The individual adjustment of the BRITA® INTENZA aroma system allows performance tailored to your water type and gives you freshly filtered water on demand for complete coffee enjoyment.

Fresh milk – creamy enjoyment

The Syntia with stainless steal Pannarello makes milk froth dreams come true in no time.

Compact, classy and supremely stylish.

With the Saeco Syntia the enjoyment starts from the moment you bring it home. Thanks to its compact design and stainless steel finish, it will become a true jewel in your family kitchen.

Compact design

A paradigm for modern compactness, the Saeco Syntia combines high-end functionality with sleek design. This narrow machine enables front access to all features so it fits wherever it's most convenient for you.

Stainless steel

The Syntia's precious stainless steel finish is robust and features a modern, stylish design which adapts perfectly to every kitchen décor.

Easy & simple

As easy as ordering at your favourite café.

The Saeco Syntia is a stand-out in terms of both enjoyment and simplicity. From the preparation of your espresso to cleaning and maintenance – everything is relaxingly convenient.

Easy-to-use

Short or long coffee with one touch, your favourite length easily stored with the memo option – it's all easy with the wide display and its self-explanatory icons.

Adjustable coffee dispenser

No matter what your favourite glass or cup is – with one movement of your hand the coffee dispenser adjusts its height to the size, preserving the temperature and aroma to capture the full taste.

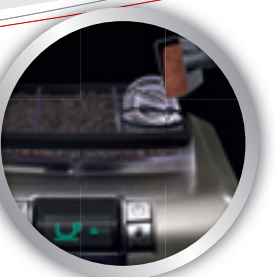

Removable brewing group

The brewing group is at the heart of every fully automatic coffee machine and it should always be kept clean. A task that doesn't get any more convenient than with a Saeco: remove, rinse and re-insert – finished!

Easy access

All machine elements you need to reach during your day-by-day enjoyment (water, coffee beans and coffee grounds container, drip tray) are completely independent and reachable either from the front or from the top. So once your Syntia has its spot you won't have to move it around.

Bypass doser

For those who like to enjoy a decaffeinated espresso for a change, the Syntia is equipped with a bypass doser for pre-ground coffee – which is easily selected via the conveniently wide display.

Family-friendliness

Your family’s new best friend.

Syntia and the new generation of fully automatic coffee machines by Saeco have been conceived and designed to especially match family demands. Discover why the Syntia is a great addition to every family.

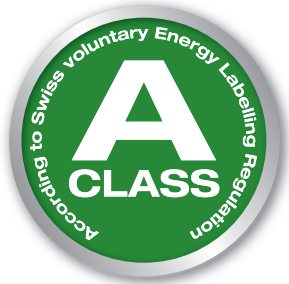

Energy Save

This feature keeps the power consumption to a minimum. In fact, less than 1 Watt per hour is needed in stand-by mode – which automatically starts after 1 hour – saving resources and money.

Class A Energy Label

The Syntia is kind to the environment – the proof is in the Class A energy label. These machines feature the highest level of energy efficiency according to the Swiss voluntary Energy Labeling Regulation (FEA agreement).

All-round café-enjoyment in style.

Introducing the newest member to the Syntia line of coffee machines: the total black Syntia. This sleek beauty features a powerhouse of innovative technologies to guarantee supreme espresso enjoyment at every level.

This new Syntia with total black style offers the same familiar Saeco features as other Syntia models – like the Saeco Fresh Taste Experience and compact design – plus a new user-friendly interface and beautiful, sleek design. Together, they give you all-round café-enjoyment that does not compromise on the delicious Italian espresso you’ve come to expect from Saeco.

User-friendly interface

Easy-to-understand buttons and icons, featuring three colours and backlighting, work together seamlessly to give you a truly enjoyable coffee experience.

Stylish, modern design

The new Syntia combines a full glossy black housing with shiny chrome-coloured accents to create an elegant contrast – sure to be the highlight in your kitchen.
